

Frontend Developer

Are you curious about how social networks and positivity can change the way food, beverage and hospitality businesses attract new customers? Are you a fan of new technologies who enjoys growing and sharing knowledge? A foodie, lifestyle guru or somebody who loves to experience new places? To support our vibrant and growing Development team in Lisbon, we are seeking a motivated Frontend Developers to combine the art of design with the art of programming, that can use their passion for people and technology, as well as their excellent communication and interpersonal skills.

About TWISPER

TWISPER is a social travel app to discover and share great restaurants, hotels and bars around the world. The app is 100% ad-free and only has real users and positive, personal recommendations. TWISPER's community includes friends, partners and influencers. With partners, TWISPER also organizes charity campaigns to help the world become a better place.

To have a positive impact on the hospitality and gastronomy industry, TWISPER recently launched TWISPER Business, a platform where businesses can get new guests through digital word of mouth. Unlike TripAdvisor and other unfair booking systems, TWISPER Business features no negative reviews, no commissions, no fake users and no ratings that negatively affect businesses everywhere.

The Job

As a Frontend Developer, you will be in charge of ensuring the alignment of web design and user experience requirements, optimizing web pages for maximum efficiency and maintaining brand consistency across all web pages. You will use your excellent communication and problem-solving skills as you will work alongside Backend Developers, Graphic Designers and User Experience Designers to ensure all elements of web creation are consistent. We are looking for someone with a keen eye for design for the position of Frontend Developer.

Main Responsibilities

- Determining the structure and design of web pages.
- Ensuring user experience determines design choices.
- Developing features to enhance the user experience.
- Striking a balance between functional and aesthetic design.
- Ensuring web design is optimized for smartphones.
- Optimizing web pages for maximum speed and scalability.
- Maintaining brand consistency throughout design.

Pre-requisites

- Proven professional experience with React
- Understanding of common design patterns, algorithms and data structures
- Experience with RESTful APIs
- Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- Experience with Git and common development flows
- Critical thinker and problem-solving skills
- Team player
- Good time-management skills
- Great interpersonal and communication skills
- Written and spoken language skills in English
